Objective

Motivated B.Tech Computer Science graduate with knowledge of Java, Python, HTML, and CSS, seeking an entry-level software development position to apply my programming skills, build efficient applications, and contribute to organizational success while continuously enhancing my technical expertise.

Personal information

- Nationality: Indian
- Religion: Hindusm
- Gender: Female
- Place: Andhrapradesh(India)
- Date of birth: Jan01,2005
- Marital status: Unmarried

Education

Kandula Lakshumma Memorial College of Engineering For Women
Bachelor of Technology *2027*
80%

Sri Sai Junior College
Intermediate *2023*
91.5%

Shri Madhusudan High School
SSC *2021*
85.5%

Skills

HTML | CSS | Java | Python | MS Office | Java Script | React | Node js

Project

Hospital Management System
Technologies Used: HTML, CSS, JavaScript
Built a responsive Hospital Management System using HTML, CSS, and JavaScript to manage patients, appointments, and billing. Implemented dynamic features and form validations to enhance user experience and operational efficiency.

Language

- English
- Telugu

Certification

Artificial Intelligence & Machine Learning Internship – YBI Foundation (Sep 2024)
Completed a 1- month hands-on internship covering data preprocessing, supervised ML algorithms, and model implementation.

Quantum Fundamentals Certification – WISER & Qubitech (2025–2026)
Completed a 4- week program on quantum computing covering qubits, superposition, entanglement, quantum gates, and basic quantum algorithms (Deutsch–Jozsa, Grover's). Equivalent to 1 academic credit.

IBM Verified Certificate – Introduction to Prompt Engineering (AI0131EN)
Completed training on designing effective AI prompts and optimizing generative AI model outputs.

Excel for Beginners – Verified Certificate (DavidsonX, edX)
Verified certification in Excel covering formulas, functions, data handling, and basic analytical operations.

Python Programming Certification – PrepInsta Technologies Pvt. Ltd.
Completed comprehensive training in Python, covering core concepts, OOP, and practical problem-solving.

Affiliation

Technical & Coding Community

- Actively involved in online coding platforms and tech communities.
- Regularly practice problem-solving and participate in coding challenges.

Volunteer

College Fest
Event Volunteer
Kandula Lakshumma Memorial College of Engineering for Women
Assisted in organizing technical and cultural events, coordinated with teams for smooth execution, and supported participant registration and event management activities.

Interests

- Learning New Technologies
- Problem Solving
- Internet Browsing for Knowledge
